**#7) Carmel New York Comcast Office Relocation/Discussion**

Chairwoman Scuccimarra stated that the Committee has received a letter from Comcast stating that they had notified the New York Public Service Commission and each Town Supervisor and every Town they serve in New York, of the relocation of their office. Please note that Comcast will still maintain a presence in the Carmel area. The Carmel office will remain open for technical operations workforce and other functions. They will be re-locating the customer portion of their operation to Danbury Connecticut which is only 13 miles from our Carmel office.

Chairwoman Scuccimarra stated it is a shame that any business would leave Putnam County to go to another state, not to mention the loss of revenue this will cause. The people here in this area that will now be inconvenienced due to the fact of having to travel 13 miles away.

Supervisor Schmitt of the Town of Carmel stated that the Town of Carmel is opposed to the relocation of Comcast, as it will definitely create a hardship for our local residents. Currently there is no breach in their franchise agreement that was originally made. The agreement will be up at this time next year and the Town of Carmel will demand that Comcast provide a local office for the customers.

Legislator LoBue stated that a lot of people will now switch their service over to Verizon due to the move.

Supervisor Schmitt stated he agrees with Legislator LoBue.

Legislator DiCarlo stated that perhaps we could contact Comcast and state that we are getting a lot of feedback from our constituents, and could we possibly arrange a sit down to discuss this move. We are hearing comments from people in the town that if they are going to be treated this way by Comcast, they will be switching providers. Comcast will have to understand what the consequences are relating to this move to Connecticut.

Legislator Oliverio asked if the Town of Carmel will negotiate with Verizon as they did with Comcast.

Supervisor Schmitt stated yes. In the agreement with Verizon, it states that they must maintain a local Customer Service Center which is located in the Shop Rite Plaza.

Legislator Gross suggested that a letter be sent from the Committee to Comcast expressing our concerns regarding the distance that people will need to travel.

Supervisor Schmitt stated he had sent a letter to Comcast himself, and it did not do any good.

Legislator LoBue made the suggestion to Supervisor Schmitt that perhaps he could make an announcement at the Town of Carmel Board Meeting about Comcast's plan to relocate, and give the residents a chance to call Comcast and complain.
